INTERNSHIPS

during A-levels

- 1. NYU / ABU DHABI / JAN 2018 - APR 2018**
I worked alongside an Industrial Designer and created a tripod device to be used for underwater filming of marine life.
- 2. TWOFOUR54 / ABU DHABI / NOV 2017 - DEC 2017**
I assisted in setting up workshops organized by twofour54 that involved creativity and film.

CLIENT PROJECTS

Undertaken the following projects as part of my undergraduate program

- 1. AHREND / THE HAGUE / AUG 2019 - FEB 2020**
I have designed an ergonomic table divider to enable the user's concentration and productivity while working in a "hot desk" environment.
- 2. BOSCH / THE HAGUE / FEB 2020 - JUL 2020**
I was tasked to redesign the Bosch GBS 75AE Belt Sander to improve the product ergonomics, performance, and dust collection efficiency.
- 3. INTERNATIONAL INSTITUTE OF SOCIAL STUDIES / THE HAGUE / AUG 2020 - FEB 2021**
We developed a prototype device enabling elders to communicate while maintaining social distance during COVID. Which was then implemented in community centers around the Hague.
- 4. PRINCESS HOME / THE HAGUE / FEB 2021 - JUL 2021**
Redesigned a portable coffee machine by improving the functionality, compactness, and user friendly.
- 5. STARCUISINE / THE HAGUE / AUG 2021 - NOV 2021**
Created luxury and premium outer food packaging for ready-to-go Indonesian meals in Dutch grocery stores.
- 6. ROYAL SMILDE / THE HAGUE / NOV 2021 - FEB 2022**
We are currently undertaking a project to develop a sustainable biodegradable packaging for single portion margarine that meets the new EU Single-Use Plastic Directive.

ABOUT ME

I possess very good software, interpersonal, and writing skills. I am a team player and I contribute effectively in a team working environment. I am keen on problem-solving and improving existing products. As part of my undergraduate studies, I've completed a few real-life industrial and community-related projects.
