PROJECTS

Blog Application
<https://github.com/andrew-m45/blog-app>
React blog application with CRUD functionality

- Implemented REST API to store, retrieve, update and delete posts on MySQL
- Authenticating user login and sessions using JWT
- Used React, Hooks(useEffect/useState), Asynchronous API, Express, JWT,MySQL, React Router

To-do Application
<https://github.com/andrew-m45/todo-app>
MERN to-do application

- Utilized REST API to store, delete and update to-dos on MongoDB
- Used Context API to create global state to share state/functions between components
- Deployed application on Heroku
- Used React, Hooks(useEffect/useState/useContext), Asynchronous API,Express, MongoDB

GitHub User Search
<https://github.com/andrew-m45/github-search>
Github user search to displays user public repos, gists etc.

- Created a website to search users/repos using GitHub API
- Utilized Context and useReducer Hooks to perform state updates
- Used React Hooks(useEffect/useState/useContext/useReducer), Asynchronous API, React Router

TRAINING / COURSES

Digital Skills: User Experience
Accenture via Futurelearn, 2022

Meta Front-End Developer Certificate
Meta via Coursera, Ongoing

SKILLS

Client-side

HTML CSS Javascript Java
React.js Vue.js Bootstrap UI/UX
Materialize Tailwind CSS

Server-side

MongoDB Node.js MySQL PHP
REST Express.js SQL Server

Development

GitHub Git Postman Selenium
VS Code Figma Miro IntelliJ
MySQL Workbench MS Office

STRENGTHS

-  **Detail oriented**
Continuously focused on how to improve my work and do it the best way I can
-  **Collaborative**
Being a part of groups during coursework helped me be a team player and helped my problem-solving skills and enhanced my communication skills
-  **Eager to learn new skills**
As a person who is starting out, I am constantly seeking for new ways to grow and expand my skill set
